C
Circular
9. (Amended) A composition according to claim 1,
comprising from about 5-35%, based on the weight of the
composition, of the auxiliary polyether or polyester polyol, or a
mixture thereof.

34. (Twice amended) A method for preparing a phthalate
polyester-ether polyol comprising
forming an intermediate phthalate-diethylene glycol
polyester-polyol comprising

72
(a) about 2-60% by weight of phthalic anhydride or phthalic
acid; and
(b) about 40-98% by weight of diethylene glycol; and
alkoxylating the intermediate phthalate-diethylene glycol
polyester polyol with about 55-80% of propylene oxide based on
the weight of the phthalate polyester-ether polyol.
